

Elvira Paxborn

Technical Artist

Internship period: 2026-08-31 - 2027-01-15

Cat haver, frog enjoyer, silly goober

Education

The Game Assembly, Malmö - Technical Art

August 2025 - Current

Fast-paced education where I'm currently studying Technical Art with a focus on Houdini and shaders to complement my environment art knowledge.

PlaygroundSquad, Falun - Game Art

August 2023 - June 2025

Studied game art with a focus on Environment Art. Worked together with other disciplines to create three game projects in different engines.

Work and Projects

Campground Interactive - Environment Art

November 2024 - June 2025, Environment Art Internship

During this internship I worked on the studios first game *Steel Effigy*. I mainly worked on foliage, props and materials but also did some setdressing and lighting.

H1 Communication

August 2022 - August 2023, Call Agent

Work as a callcenter agent where I helped customers from various companies with multiple different issues such as billing, bookings, and tech support.

ECOPOINT

9 Weeks, School Project

Action-Adventure game made in UE5. During this project my main focus was foliage creation, where I also did photoscanning for some of the textures.

Other

Malmö Game Week

1 day - August 2025, Volunteer

Part of the general support team. Helped setting up, guiding people and also greeting guests at the entrance.

Gamedev Summer Camp

3 days - June 2024, Volunteer

Part of planning and one of the leaders during PlaygroundSquads gamedev summer camp for women, trans and non-binary people.
